## Professional Summary

Highly skilled Full Stack Developer with 5+ years of experience building and deploying robust web applications. Proven ability to lead remote teams, solve complex problems, and deliver high-quality results across both front-end and back-end development. Expertise in modern JavaScript frameworks, databases, and cloud technologies.

## Experience

### Senior Full Stack Developer - Tech Solutions Inc.

New York, NY | 06/2020 - Present

- Led the development of a SaaS dashboard for small businesses, resulting in a 20% increase in user engagement.
- Developed and maintained scalable REST APIs using Node.js, Express.js, and TypeScript.
- Implemented and optimized database solutions using PostgreSQL.
- Deployed and managed applications on AWS.

### Full Stack Developer - Innovative Web Solutions

San Francisco, CA | 01/2018 - 05/2020

- Developed a real-time chat application using React, Node.js, and Socket.IO.
- Contributed to the front-end development of a large-scale e-commerce platform.
- Collaborated effectively with cross-functional teams in an agile environment.

## Education

### Master of Science in Computer Science - Stanford University

Stanford, CA | 09/2016 - 05/2018

## Skills

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frameworks/Libraries:** React, Node.js, Express.js, Redux
- **Databases:** PostgreSQL, MySQL
- **Cloud:** AWS (EC2, S3, RDS)
- **Tools:** Git, Docker, Kubernetes

## Projects

### Real-time Chat Application

Developed a real-time chat application using React, Node.js, and Socket.IO. Features included private messaging, group chats, and user authentication.

### SaaS Dashboard for Small Businesses

Built a comprehensive SaaS dashboard to manage customer data, sales, and marketing campaigns. Utilized React, Node.js, and PostgreSQL.

### AR-Powered Job Discovery Mobile App

Created an augmented reality mobile application that uses geolocation to discover job opportunities nearby. Developed using React Native and integrated with a job API.
